The screenshot shows a window titled "Edit Photo.fxml" with standard window controls (minimize, maximize, close). The window is divided into two main sections: "Edit a Photo" on the left and "Existing Tags" on the right. In the "Edit a Photo" section, there are three text input fields: "Album:" (highlighted with a blue border), "Caption:", and "Tag Values:". Below the "Tag Values:" field is a button labeled "Add New Tag". Above the "Tag Values:" field is the text "Separate tags with commas". The "Existing Tags" section contains a large, empty rectangular box. At the bottom right of the window are two buttons: "Cancel" and "Confirm".
